

Simplifying Fire

Project Information

- Project Title
H & M Store - Staines
- Client
Cardinal
- Value
£20K
- Disciplines
Fire alarm & disabled refuge

Project Details

H & M Staines, situated within Elmsleigh Shopping Centre on Staines High Street, has recently been given a major facelift. GB Integrated Systems were appointed by Cardinal projects to deliver fire alarm modifications along with the addition of a disabled refuge alarm during the refurbishment of the store. The fire alarm system was extended to cover the 1st floor and whilst the existing Advanced MX Pro panel remains, the majority of the

Field devices have been replaced for newly colour coordinated models. The project was met within budget and handed over on schedule as a result of our engineers hard work and dedication.

Key elements included:

- Addition of Apollo XP95 fire alarm devices
- New disabled refuge
- Extension and modification of existing Advanced MX Pro fire alarm system.
